Eliason® Unique Features and Benefits

Easy Swing® Hinge
Quick, Easy Installation - Takes about half the amount of time that it takes to install other hinges.

Hidden Hardware - Hidden Hinges and Flush Windows
This unique combination creates a sleek, attractive door panel that will complement any décor.

Exclusive Delta-Shaped Formation
Provides panel with strength and rigidity and eliminates the need for back edge spines that are susceptible to bending, gapping and separating.

Full Perimeter Steel Reinforced Frames
Ensures door panel strength and integrity, even in the toughest industrial door applications.

Continuous-Welded Stainless Steel Edge Cap
Enhances the appearance of your door and eliminates the possibility of separation that is prevalent with competitive doors.
## The Benefit of Certification

### NSF

Eliason Corporation offers traffic doors that are certified by NSF International, The Public Health and Safety Company™. NSF International is a not-for-profit organization providing certification and other services for products related to food, water, indoor air and the environment. Doors that are NSF® certified are identified throughout the catalog with the NSF® logo.

### CFIA

Eliason Corporation offers traffic doors that are approved by the Canadian Food Inspection Agency, an organization focused on the well-being of Canadian residents by safeguarding its food, animals and plants. Traffic doors that are CFIA approved are shown throughout the catalog with the CFIA logo.

### BIM

Eliason Corporation provides building information modeling (BIM) content for its doors through its partnership with Arcat®, a building product information service used by architectural, engineering and construction professionals. Doors that have BIM objects are identified throughout the catalog with the Arcat® BIM logo.

Commercial & Industrial Doors

Heavy Industrial

Eliason Corporation is proud to introduce its new line of commercial and industrial use doors. These rugged doors operate smoothly, require little maintenance and are built to survive in even the toughest applications. Like all Eliason® products, these high performance industrial doors are engineered to be the best.

MODEL: SR-9000
APPLICATIONS: Industrial, Commercial, Food Processing, Cold Storage, Warehouse, Supermarket, Retail, Cooler
TRAFFIC: Forklift, Pallet Jack, Push Cart, Pedestrian
Door Body: A heavy duty reinforced internal steel frame combined with a full perimeter extruded PVC frame ensure panel strength and integrity. Both sides of each door panel are clad with .100” thick impact resistant ABS plastic. The CFC-free urethane foam core bonds to the outer door shell and creates an “R” factor of 12.18. These doors are impervious to moisture, acid, petroleum products, animal fat, rodents, insects and salt solutions. Replaceable blade gaskets on the vertical and bottom edges and a frame mounted top-seal are standard. Overall panel thickness is 1-3/4”.
Window: Impact resistant polycarbonate vision panel set in sealed internal rigid PVC frame. 14-1/2” x 22-1/2”
Hinge: Heavy duty stainless steel V-Cam, anodized cast aluminum upper and lower hinge posts, heavy duty roller assembly and lower pillow block bearing.
Optional: Aluminum or steel jamb guard
   Spring Assist
   Easy spring bumpers up to 42” high

MODEL: FX-9000
APPLICATIONS: Industrial, Commercial, Food Processing, Cold Storage, Warehouse, Supermarket, Retail, Cooler
TRAFFIC: Forklift, Pallet Jack, Push Cart, Pedestrian
Door Body: An extra heavy duty reinforced internal steel frame combined with a full perimeter extruded PVC frame ensure panel strength and integrity. Both sides of each door panel are clad with .100” thick impact resistant ABS plastic. The CFC-free urethane foam core bonds to the outer door shell and creates an “R” factor of 12.18. These doors are impervious to moisture, acid, petroleum products, animal fat, rodents, insects and salt solutions. Replaceable blade gaskets on the vertical and bottom edges and a frame mounted top-seal are standard. Overall panel thickness is 1-3/4”.
Window: Impact resistant polycarbonate vision panel set in sealed internal rigid PVC frame. 14-1/2” x 22-1/2”
Hinge: Heavy duty stainless steel V-Cam, anodized cast aluminum upper and lower hinge posts, heavy duty roller assembly and lower pillow block bearing.
Optional: Aluminum or steel jamb guard
   Spring Assist
   Easy spring bumpers up to 42” high

BEST IN THE INDUSTRY:
Heavy duty reinforced welded steel frame and V-Cam hinge

Commercial & Industrial Doors

**MODEL: STRIP DOORS**

**APPLICATIONS:** Commercial, Industrial, Warehouse

**TRAFFIC:** Forklift, Pallet Jack, Push Cart, Pedestrian

**Door Body:** Clear flexible PVC strips are available in thicknesses ranging from .06" to .160" and widths from 4" to 16". Strips come in both standard and USDA low-temp reinforced grades. Strip overlap is adjustable depending on the application.

**Mounting:** Four different types of mounting hardware are available, providing versatility to mount on the wall above the door header or under the door jamb.

Options: Various sized windows and impact resistant scuff plates.

**MODEL: STRIP DOORS**

**APPLICATIONS:** Commercial, Industrial, Warehouse

**TRAFFIC:** Forklift, Pallet Jack, Push Cart, Pedestrian

**Door Body:** Clear flexible PVC strips are available in thicknesses ranging from .06" to .160" and widths from 4" to 16". Strips come in both standard and USDA low-temp reinforced grades. Strip overlap is adjustable depending on the application.

**Mounting:** Four different types of mounting hardware are available, providing versatility to mount on the wall above the door header or under the door jamb.

Options: Various sized windows and impact resistant scuff plates.
Corrosion Resistant Doors & Frames

Eliason® corrosion resistant door products are engineered and manufactured to survive in the harshest environments. We offer corrosion resistant doors that are suitable for interior and exterior applications including: Cold storage facilities, sewage treatment plants, manufacturing facilities, food processing facilities, zoos, amusement parks and other harsh environments. Eliason CF-9000 and CF-9001 doors are suitable for wash down.

MODEL: CF-9000
APPLICATIONS: Commercial, Industrial, Institutional, Cold Storage, Food Processing, Warehouse, Supermarket, Retail, Restaurant
TRAFFIC: Pedestrian
Door Body: Full perimeter reinforced internal steel frame which is covered with a rigid PVC extrusion. Impact resistant ABS cladding is then bonded to the rigid PVC extrusion, creating a sealed outer shell. The high density core is foamed in place with CFC-free urethane foam which also bonds to the ABS face sheets and creates an "R" value of 12.18. Overall door thickness is 1-3/4".
Finish: .100" thick impact resistant thermoplastic, available in a variety of colors, is bonded to each side of the door panel. Optional FRP or Kydex® cladding is also available.
Window: Optional double-pane acrylic vision panels are 3/16" thick and mounted flush to the door panel surface. Standard sizes are 9" x 14", 14" x 16" or 9" x 30". Inquire about other custom window sizes.
Hinge: Door panel is shipped complete with required number of heavy duty mortise hinges.
Hardware Preparation: Door panels are reinforced and prepped for customer specified hardware typically supplied by others.
Options: Push plates, scuff plates, locksets, panic release bars, stainless steel or FRP frames.

MODEL: CF-9001
APPLICATIONS: Commercial, Industrial, Institutional, Cold Storage, Food Processing, Warehouse, Supermarket, Retail, Restaurant
TRAFFIC: Pedestrian
Door Body: Internal full perimeter rigid fiberglass frame that is reinforced at all hinge and hardware locations. .125" thick FRP face sheets are then bonded to the rigid fiberglass frame, creating a sealed outer shell. The CFC-free high density foam core also bonds to the FRP face sheets. "R" value of 12.18. Overall door thickness is 1-3/4".
Finish: .100" thick FRP is bonded to each side of the door panel. Optional impact resistant Kydex® cladding is also available.
Window: Optional double-pane acrylic vision panels are 3/16" thick and mounted flush to the door panel surface. Standard sizes are 9" x 14", 14" x 16" or 9" x 30". Inquire about other custom window sizes.
Hinge: Door panel is shipped complete with required number of heavy duty mortise hinges.
Hardware Preparation: Door panels are reinforced and prepped for customer specified hardware typically supplied by others.
Options: Push plates, scuff plates, locksets, panic release bars, stainless steel or FRP frames.

All Eliason® CF-9000 and CF-9001 corrosion resistant doors will retain their physical properties to -40°F (-40°C) and are impervious to moisture, acid, petroleum products, animal fats, rodents, insects and salt solutions. These high quality doors are available in a variety of colors and can be prepped at the factory for most hinge and hardware requirements. Optional hardware, such as door closers and panic release bars are typically supplied by others.
Eliason® Sliding Door Solutions

Eliason® Sliding Door Solutions are modular in design and combine the aesthetic appeal and durability of our custom built sliding door panels with the Tormax iMotion® 2301 Direct Drive System. With Eliason sliding doors, the choice is always yours...from various cladding, window and activation options to single or bi-parting models, you can count on Eliason to meet your sliding door requirements at a reasonable price.

IDEAL FOR THESE APPLICATIONS:

• Manufacturing
• Processing Plants
• Clean Rooms
• Thermal Separation
• Sound Abatement
• Security

Eliason® SD Series insulated horizontal sliding doors are designed for applications where swinging or roll-up doors are not practical. They are well suited for all types of traffic in clean rooms, dry storage and washdown environments. Eliason 9000 Series sliding doors feature a full perimeter welded internal tubular steel frame, full perimeter rigid PVC extrusion and .100” thick impact resistant ABS cladding, which is bonded to the rigid PVC extrusion. Eliason 9001 Series sliding doors feature a full perimeter reinforced fiberglass frame with .125” thick FRP or Kydex® cladding on both sides bonded to the rigid fiberglass frame. Both models feature a high density core that is foamed in place with CFC-free urethane foam. These doors are impervious to moisture, acid, petroleum products, animal fats, rodents, insects and salt solutions. Eliason SDM Series sliding doors are manually operated. Eliason SDA Series sliding doors are automatically operated and are powered by the Tormax iMotion Direct Drive System. All Eliason sliding doors operate on a heavy duty anodized aluminum track and are available in either single panel or bi-parting configurations.

Solutions for the medical, pharmaceutical, food processing & warehousing industries.

SDM-9000 / SDA-9000

APPLICATIONS: Commercial, Industrial, Institutional, Cold Storage, Food Processing, Warehouse, Supermarket, Retail, Restaurant, Washdown

TRAFFIC: Push Cart, Pedestrian

Door Body: Full perimeter internal reinforced steel frame which is covered with a rigid PVC extrusion. Impact resistant ABS cladding is then bonded to the rigid PVC extrusion, creating a sealed outer shell. The high density core is foamed in place with CFC-free urethane foam which bonds to the ABS face sheets and creates an “R” value of 12.18. Overall door thickness is 1-3/4”. Single or Bi-Parting models area available.

Finish: .100” thick impact resistant thermoplastic.

Window (Optional): Double-pane acrylic vision panels are 3/16” thick and are mounted flush to the door panel surface. Standard sizes are 9”x14”, 14”x16”, or 9”x30”. Inquire about other custom window sizes.

Gasket Seals: Upper Track Brush Seal; Leading Edge Balloon Seal; Back Edge Wiper Seal (frame mounted); Bottom Edge Blade Seal.

Track System: Extruded anodized track system with heavy duty trolley system. Includes frame casing.

Direct Drive System (Optional): Tormax 2301 Programmable Direct Drive System for automatic operation. Standard safety features include auto-reverse and frame mounted infrared safety beams. Various activation devices, horns, buzzers are also available.

Options: Pull handles, Pull cups.

SDM-9001 / SDA-9001

APPLICATIONS: Commercial, Industrial, Institutional, Cold Storage, Food Processing, Warehouse, Supermarket, Retail, Restaurant, Washdown

TRAFFIC: Push Cart, Pedestrian

Door Body: Full perimeter rigid reinforced fiberglass frame with FRP sheets bonded to both sides, forming a tough and sanitary outer shell. The high density core is foamed in place with CFC-free urethane foam which also bonds to the FRP face sheets and creates an “R” value of 12.18. Overall door thickness is 1-3/4”. Single panel or Bi-Parting models area available.

Finish: .125” thick FRP or Kydex® cladding.

Window (Optional): Double-pane acrylic vision panels are 3/16” thick and are mounted flush to the door panel surface. Standard sizes are 9”x14”, 14”x16”, or 9”x30”. Inquire about other custom window sizes.

Gasket Seals: Upper Track Brush Seal; Leading Edge Balloon Seal; Back Edge Wiper Seal (frame mounted); Bottom Edge Blade Seal.

Track System: Extruded anodized track system with heavy duty trolley system. Includes frame casing.

Direct Drive System (Optional): Tormax 2301 Programmable Direct Drive System for automatic operation. Standard safety features include auto-reverse and frame mounted infrared safety beams. Various activation devices, horns, buzzers are also available.

Options: Pull handles, Pull cups.

www.eliasoncorp.com  800.828.3655
MODEL: HCP-10 / HCG-10
APPLICATIONS: Commercial, Industrial, Supermarket, Retail
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Urethane foam core with a high strength structural PVC frame, 1-1/2" total door thickness
Finish: 100" thick high-impact thermoplastic exterior
Window: 14" x 16" clear acrylic, double glazed set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Easy Spring Bumper: 18" high (both sides)
Optional: 24" high scuff plate (both sides)
HCG-10: Same finish as the HCP-10 with perimeter seal

MODEL: PE-500 / PG-500
APPLICATIONS: Commercial, Industrial, Food Processing, Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: HDPE High density polyethylene (USDA accepted) with full length 16 gauge stainless steel back channel on black edge of each panel. 1/2" total door thickness.
Window: 9” x 14” clear acrylic set in black rubber molding.
Hinge: Eliason Easy Swing® Hinge
Available Options: Full perimeter gasketing, jamb guards, impact plates, molded spring bumpers, special vision panel configurations.
PG-500: Same finish as the PE-500 with perimeter seal

MODEL: LWP-3
APPLICATIONS: Supermarket, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: .063” thick tempered aluminum alloy with delta formed vertical edges
Finish: Anodized aluminum
Window: 9” x 14” clear acrylic set in black rubber molding
Shown with Optional: 15” x 20” clear acrylic windows
MODEL: EISA-10 / 20 / 30
APPLICATIONS: Supermarket, Restaurant, Cooler
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Constructed with a 3.5” rigid I-beam frame which adds structural strength. High density core foamed in-place with CFC-free foam which bonds to an ABS face sheet with an R Value of 25. Available in 3 finishes.
Finish:
- EISA-10: Aluminium upper panel with 20 gauge stainless steel impact plates.
- EISA-20: Full height 20 gauge stainless steel
- EISA-30: .100” thick high-impact thermoplastic exterior
Gasketing: Perimeter seal
Window:
- EISA-10: 14” x 14” triple pane gas filled window set in aluminum frame
- EISA-20: 14” x 14” triple pane gas filled window set in brushed nickel frame
- EISA-30: 14” x 16” window set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Options: Easy Spring Bumpers, Jamb Guards and Push Plates

MODEL: SCG-3 / FCG-3
APPLICATIONS: Supermarket, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
SGC-3 Door Body: 75” exterior grade solid wood core, 1” total door thickness
Finish: 20 gauge full length stainless steel panels (both sides)
Window: 9” x 14” clear acrylic set in black rubber molding
Gasketing: Perimeter seal with adjustable bottom gasket
Hinge: Eliason Easy Swing® Hinge
Options: Easy Spring Bumpers, Jamb Guards and Push Plates
Shown with Optional: 15” x 20” clear acrylic windows
FGC-3: Same finish and gasketing as SCG-3 with 1.5” foam insulated core and double glazed window

MODEL: FCD-120
APPLICATIONS: Supermarket, Grocery, Cooler
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Single ply .120” clear vinyl sheet
Hardware: Top mounted, no bottom pivot, off-set mounting hardware available if required

MODEL: STRIP DOORS
APPLICATIONS: Commercial, Industrial, Cooler, Freezer
TRAFFIC: Forklift, Pallet Jack, Push Cart, Pedestrian
Door Body: Clear flexible PVC strips are available in thicknesses ranging from .06” to .160” and widths from 4” to 16”. Strips come in both standard and USDA low-temp reinforced grades. Strip overlap is adjustable depending on the application.
Mounting: We offer four different types of mounting hardware, providing versatility to mount on the wall above the door header or under the door jamb.
Options: Various sized windows and impact resistant scuff plates

MODEL: FMP
APPLICATIONS: Supermarket, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: 2 layers of .120” thick textured PVC bonded back to back with jamb-edge balloon seals and wiper seals at the top and bottom of each door panel. Large flexible vision panels provide maximum visibility. Hinge pocket is reinforced with vinyl-coated nylon material. Bi-parting models have 3” overlap at center.
Window: 14” x 16” clear vinyl
Hinge: Eliason heavy-duty top mounted, gravity-operated hinges allow the door panels to open easily and close automatically. Top mounted only design leaves maximum WIC available for passage of wide loads.
Options: Various sized windows and impact resistant scuff plates

www.eliasoncorp.com 800.828.3655

Many of our doors are certified by U.S. and Canadian Food Inspection Agencies and all of our “R-25” doors comply with all EISA requirements.
Retail Doors
Retail is quick and convenient. It’s friendly. It’s interesting. It’s not just your work, but very often, your life. We custom design doors and gates to complement your surroundings so you enjoy spending time in a place that welcomes you day after day.

MODEL: LWP CAFE DOOR
APPLICATIONS: Retail, Restaurant, Supermarket
TRAFFIC: Pedestrian
Door Body: .063” thick tempered aluminum alloy
Finish: Optional .032” decorative high-pressure laminate (both sides)
Color Options: Unlimited selection of laminates available. Laminate can be printed in almost any color or pattern.
Window: 9” x 14” clear acrylic set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Cafe door shown with Optional: Contour top

MODEL: DSP-3
APPLICATIONS: Retail, Restaurant
TRAFFIC: Push Cart, Pedestrian
Door Body: 16 gauge stainless steel with delta formed vertical edges
Window: 9” x 14” clear acrylic set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Shown with Optional: 15” x 20” acrylic window.

MODEL: P-11 PLUS
APPLICATIONS: Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Polymer cell core with .5” solid ABS frame, 3/4” total door thickness
Finish: .100” thick high impact thermoplastic exterior
Window: 14” x 16” clear acrylic set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Back Channel: 14 gauge galvanized, powder coated satin black

MODEL: RMR-1500
APPLICATIONS: Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Rotationally molded, monolithic door panel with CFC-free foam core and full perimeter gaskets. 1-1/2” total door thickness. Polyethylene door skin is .188” thick.
Window: 18” x 18” high-impact polycarbonate set in two-piece black window frame
Hinge: Eliason Easy Swing® Hinge
Easy Spring Bumpers: Available up to 42” high on both sides of each door panel.
Jamb Guard: 3” x 9” Aluminum jamb guards are standard.

MODEL: HCP-10 / HCG-10
APPLICATIONS: Commercial, Retail, Supermarket
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Urethane foam core with a high strength structural PVC frame. 1-1/2” total door thickness
Finish: 100” thick high-impact thermoplastic exterior
Window: 14” x 16” clear acrylic, double glazed set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Easy Spring Bumper: 18” high (both sides)
Optional: 24” high scuff plate (both sides)
HCG-10: Same finish as the HCP-10 with perimeter seal.

MODEL: PE-500 / PG-500
APPLICATIONS: Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: HDPE High density polyethylene (USDA accepted) with full length 16 gauge stainless steel back channel on back edge of each panel. 1/2” total door thickness.
Window: 9” x 14” acrylic set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Available Options: Full perimeter gasketing, jamb guards, impact plates, molded spring bumpers, special vision panel configurations.
PG-500: Same finish as the PE-500 with perimeter seal.

MODEL: LWP CAFE DOOR
APPLICATIONS: Retail, Restaurant, Supermarket
TRAFFIC: Pedestrian
Door Body: Urethane foam core with high strength structural PVC frame. 1-1/2” total door thickness
Finish: Optional .032” decorative high-pressure laminate (both sides)
Color Options: Unlimited selection of laminates available. Laminate can be printed in almost any color or pattern.
Window: 9” x 14” clear acrylic set in black rubber molding

TRAFFIC: Push Cart, Pedestrian
Door Body: 16 gauge stainless steel with delta formed vertical edges
Window: 9” x 14” clear acrylic set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Shown with Optional: 15” x 20” acrylic window.

MODEL: P-11 PLUS
APPLICATIONS: Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Polymer cell core with .5” solid ABS frame, 3/4” total door thickness
Finish: .100” thick high impact thermoplastic exterior
Window: 14” x 16” clear acrylic set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Back Channel: 14 gauge galvanized, powder coated satin black

MODEL: RMR-1500
APPLICATIONS: Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Rotationally molded, monolithic door panel with CFC-free foam core and full perimeter gaskets. 1-1/2” total door thickness. Polyethylene door skin is .188” thick.
Window: 18” x 18” high-impact polycarbonate set in two-piece black window frame
Hinge: Eliason Easy Swing® Hinge
Easy Spring Bumpers: Available up to 42” high on both sides of each door panel.
Jamb Guard: 3” x 9” Aluminum jamb guards are standard.

MODEL: HCP-10 / HCG-10
APPLICATIONS: Commercial, Retail, Supermarket
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Urethane foam core with a high strength structural PVC frame. 1-1/2” total door thickness
Finish: 100” thick high-impact thermoplastic exterior
Window: 14” x 16” clear acrylic, double glazed set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Easy Spring Bumper: 18” high (both sides)
Optional: 24” high scuff plate (both sides)
HCG-10: Same finish as the HCP-10 with perimeter seal.

MODEL: PE-500 / PG-500
APPLICATIONS: Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: HDPE High density polyethylene (USDA accepted) with full length 16 gauge stainless steel back channel on back edge of each panel. 1/2” total door thickness.
Window: 9” x 14” acrylic set in black rubber molding
Hinge: Eliason Easy Swing® Hinge
Available Options: Full perimeter gasketing, jamb guards, impact plates, molded spring bumpers, special vision panel configurations.
PG-500: Same finish as the PE-500 with perimeter seal.

MODEL: RMR-1500
APPLICATIONS: Supermarket, Retail, Restaurant
TRAFFIC: Pallet Jack, Push Cart, Pedestrian
Door Body: Rotationally molded, monolithic door panel with CFC-free foam core and full perimeter gaskets. 1-1/2” total door thickness. Polyethylene door skin is .188” thick.
Window: 18” x 18” high-impact polycarbonate set in two-piece black window frame
Hinge: Eliason Easy Swing® Hinge
Easy Spring Bumpers: Available up to 42” high on both sides of each door panel.
Jamb Guard: 3” x 9” Aluminum jamb guards are standard.

Econo-Covers®

At Eliason®, we have worked hard to understand what it takes to fulfill your energy saving needs. That’s why we have developed a series of energy efficient products to help cut costs while maximizing eco-friendliness. Not only will you realize lower energy bills, you may also qualify for available energy rebate programs that vary from state to state.

ECONO-COVER®: DOUBLE ACTION
A double action Econo-Cover is shown in use on a produce display case. Econo-Covers are available in Clear, White, Metallic Gray and Black.

ECONO-COVER®: EASY MOUNT
A clear Econo-Cover is shown deployed on a gondola display case.

ECONO-STrips®
Unique, simple and effective in directing cold air flow, our see-through strips reduce refrigeration loss, create warmer aisles and provide 24-hour product protection.

ELIASON® ENERGY SAVINGS PRODUCTS PROVIDE UNIQUE BENEFITS:
• Eliason Econo-Covers are proven to be more efficient – Proven in independent lab tests!
• The Econo-Cover provides up to 23% savings on refrigeration energy costs, while helping to maximize product shelf life and safety.
• Econo-Covers typically cost a fraction of competitive aluminum night shades.
• The Eliason Magnetic Mount provides a secure method to hold the cover in-place without marking or damaging your case.
• The flexible Magnetic Mount allows for a faster and easier installation.
• Eliason Econo-Covers have no springs or gears – no moving parts = less maintenance!

ECONO-COVER®: STORAGE TRAY
When not in use, Econo-Cover night shades store neatly in their own specially designed plastic molded storage tray, which mounts directly to the display case.

Energy Saving Econo-Covers®
• Proven in independent testing to be more effective than woven aluminum covers
• Reduce energy costs and increase product shelf life
• New Magnetic hold down feature
• Quick and easy installation
• Excellent ROI payback
• Helps maintain case and product temps during emergency power outages
• Great for restaurant, grocery stores, convenience stores
• Low profile design makes it easy to install the Econo-Cover on either the inside or outside of your display case
